SKILLS

Version Control:

- Git, GitHub

Languages:

- HTML5
- CSS3
- JavaScript
- Ruby

Front-End Development:

- React
- Rails
- Handlebars
- Bootstrap
- jQuery

Back-End Development:

- MongoDB
- Mongoose
- Express
- Node
- PostgreSQL

Transferable Skills:

- Critical Thinking
- Communication
- Planning & Research
- Agile Experience
- Visual Design

EDUCATION

University of Georgia
Athens, GA
2011 – 2015
BFA, Graphic Design
Honors Program
Henry King Stanford Scholar

Emmy Feinberg

I am a **full stack developer** who believes in thinking big picture to foster empathy. With a background in UX design, I feel that overlooked parts of our daily experience like soft-spoken team members, scalable code, and thorough project planning have untold potential. I look forward to combining my keen eye and aptitude for learning with real human connections.

EXPERIENCE

General Assembly, Atlanta — Web Development Fellow

August 2018 - PRESENT

Selected to participate in General Assembly's 12-Week Web Development Immersive, which encompasses 500+ hours of training on common programming languages, frameworks, libraries, and development concepts.

- Completed 4 portfolio projects to demonstrate technical skills. This included the construction of a single-page voting application using the MERN stack and RESTful routing, as well as a tabletop-game assistant which used Ruby on Rails, React, and Axios to manage data.
- Structured group efforts using agile practices and git branching, resulting in a Ruby on Rails and React-based solution that exceeded expectations and bolstered team confidence.
- Actively collaborated with classmates to share expertise and resources.

IBM, Atlanta — UX Designer

December 2016 - August 2018

Employed Design Thinking to conduct user research, determine app-wide design rules, and build high-fidelity prototypes. Consistently produced high quality design work that received positive feedback from range of stakeholders.

- Identified key insights through careful analysis of user research, creating intuitive, accessible interfaces and increasing usage and adoption of company best practices.
- Mastered new prototype-building techniques, creating cutting-edge testing environments that delivered critical user feedback prior to initial application release.
- Maintained open lines of communication and quick response times, meeting project goals ahead of major deadlines.

AWARDS

IBM Manager's Choice Award 2017: Share Expertise

Awarded by Kim King for organizing Lunch and Learn about prototyping tools and encouraging exploration of new technologies.

IBM Manager's Choice Award 2016: Unite to Get It Done Now

Awarded by Dana Taylor for superior contributions to mobile application prototypes prior to CEO presentation of deliverables.
